“Happiness Makers for three generations”

Luca D'Amico

Massimiliano Dovo

INSPIRED BY HAPPINESS

Since its foundation more than eighty years ago, Tonitto 1939 sees ice cream as **“a moment of pleasure and happiness”** that strongly binds the company to its customers.

Albeit Tonitto 1939 has evolved over the course of **three generations**, this bond's profound impact lasted, bringing light and strength to every major steps in the course of **Tonitto's history** and being the force underneath the company values.

Respect for raw materials and for the original Italian ice cream preparations, a look towards contemporary needs of consumption: those things kept the company faithful to its origins, today Tonitto 1939 relies on four core principles that inspire its future and preserve its heritage:

- **AUTHENTICITY**
- **GOODNESS**
- **SUSTAINABILITY**
- **INNOVATION**

1

INSPIRED BY AUTHENTICITY

We leverage our past and our experience to improve ourselves every days from generation to generation.

Authenticity is what Tonitto 1939 recognizes itself in: it's a **principle that binds the company to its foundation**, at the time when its founder Antonio Dovo - called "**Tonitto**" by his friends and recognized with this name by his customers - started a **small artisan business in Genoa**, in the heart of the Italian Riviera.

A nickname that rapidly became the company's trademark under the helm of Antonio's son, Alfredo, when he brought along his father's teachings, transitioning the company to the **industrial scale** and holding the flag of authenticity high. A flag that also passed hands to Luca and Massimiliano, Antonio's grandsons: today they carry the authenticity flag **around the world**, together with the name Tonitto, which preserves the company's founding principles.

2

INSPIRED BY GOODNESS

Goodness, more than anything, it's what defines an ice cream: it must be good! According to Tonitto's standards, goodness is the defining **factor of quality**.

For this simple reason, goodness - and therefore quality - are paramount to the company.

To keep on reaching the higher level of quality, the company has been investing in two core assets: the **"Tonitto clean label"** and the **"happiness protocol"**.

We meet **the highest industry standards in food production**, constantly certified by:

- BRC (reaching the highest level since 2003)
- IFS (reaching the highest level since 2003)

and we have many more certifications according by different matters.

CLEAN LABEL

Clean Label stands for two important things: first and foremost, that everything within product's ingredient list is **100% natural**; then, that every recipe requires the **lowest number of ingredient possible**, an effort that took years in refinement - from selecting raw materials to designing new industrial techniques - and now spreads through the company's full line-up.

HAPPINESS PROTOCOL

On the other hand, the "Happiness Protocol" defines the process which Tonitto 1939 makes sure goodness meets its standards every time. It **involves the entire company**, from top to bottom, and reaches out to its community, so that Tonitto 1939 can always **double-check** its choices while moving towards our customers.

STEP 1

CLEAN LABEL STANDARDS

- NO CHEMICAL ADDITIVES
- NO COLORANTS
- NO HYDROGENATED FATS
- NO GMO
- NO ARTIFICIAL FLAVORINGS

TONITTO 1939 HAPPY FAMILY

3 INSPIRED BY SUSTAINABILITY

Tonitto 1939 works hard to **share happiness** by refining its products, and happiness is for the people. But, as a modern company, Tonitto 1939 also knows it must stretch the reach of its purpose to **protect the environment** as part of its **social responsibility**. A safer and healthier World is “for the people” too.

Therefore, since 2017, the company is committed to the “**UN Sustainable Development Goals or Agenda 2030**” on five specific chapters:

- **Clean and accessible energy:** Tonitto 1939 chose early to develop electricity from **green-energy sourcing** and was among the first to instal photovoltaic panels to reduce its carbon footprint, as the production plant shifted to renewable energy to reduce carbon-dioxide emission by over 150 tons every year.

We're focused on technology because it drives innovation, especially in the food production sector. Our plant has been designed to deliver high performance and quality consistency over time, allowing us to reach important target.

- 35 MILLIONS OF LITERS / YEAR
- 4 PRODUCT LINES
- FULLY AUTOMATED

• **Responsible production and consumption:** the company's production plant is also able to reduce its water waste by more than 50% through **recycle and re-use of grey water**; moreover on that chapter, the company also shifted on **sustainable packaging materials** such as **recycled cardboard** and **R-PET**, from certified sources since 2019.

• **Good health and well-being:** Tonitto 1939 is proud to mention its long lasting efforts aimed at consumer health improvement through a variety of projects such as **clean label**, **short label**, a complete list of **vegan ice creams**, and a newly introduced line of “**free from**” products.

• **Zero hunger and Zero poverty** – Tonitto 1939 is actively **partnering with fair trade associations**, in particular with Altromercato – an NGO associated to World Fair Trade Organization - to source raw materials from ethical trade and to pursue the fight against poverty and for equity.

UNITED NATIONS SUSTAINABLE DEVELOPMENT GOALS DEVELOPED BY TONITTO

4 INSPIRED BY INNOVATION

Tonitto 1939 strongly believes its product must meet the needs and trends of consumers.

In fact, its offering is designed over the 6, most relevant **mega-trends*** for the category.

The resulting analysis of this mega-trends allowed Tonitto 1939 to identify the **4 Pillars of Happiness**, which connect to an equal number of consumer segments. Natural, Individual, Healthy and Familiar.

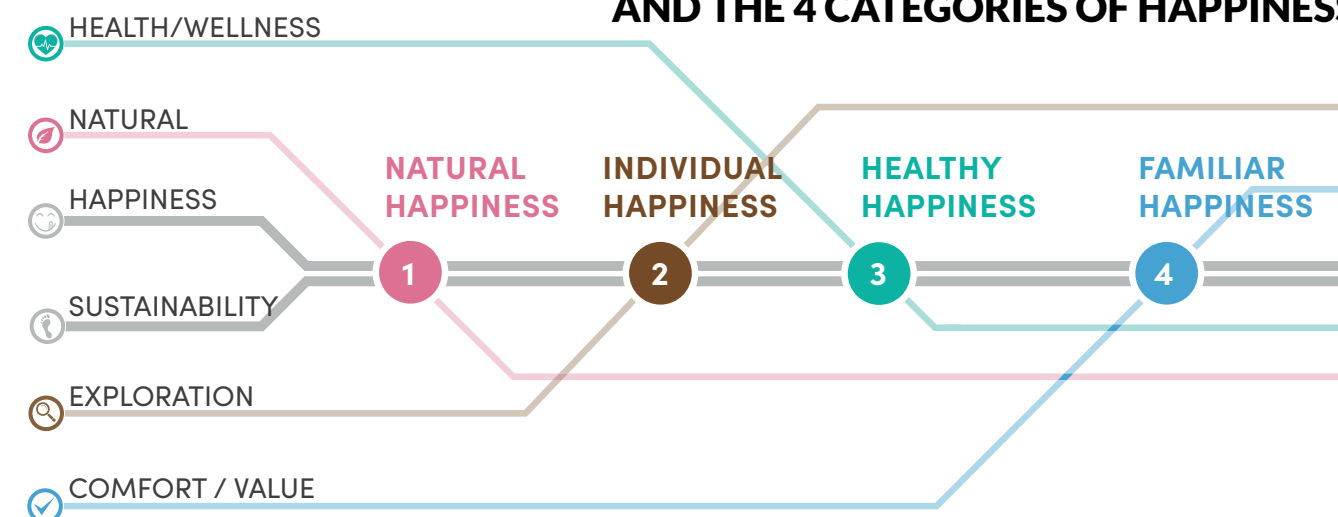

**based from Global Data*

THE 4 PILLARS OF HAPPINESS

- **NATURAL**
(naturalness and authenticity, pleasure and sustainability)
- **INDIVIDUAL**
(experience/exploration, pleasure and sustainability)
- **HEALTHY**
(health and wellness, pleasure and sustainability)
- **FAMILY**
(convenience and practicality, pleasure and sustainability)

THE 6 MEGA-TRENDS* AND THE 4 CATEGORIES OF HAPPINESS

**BASED ON GLOBAL DATA SOURCE*

DELIVERING HAPPINESS TO EVERYONE, EVERYWHERE

Tonitto's purpose is to bring happiness to everyone, everywhere. Our agenda clearly shows this passionate approach in everyday choices aiming to bringing a moment of happiness both at home and away from, under our own brand as well as PL, in Italy and all around the world.

YO-YO

FRESCO COME IL GELATO, CREMOSO COME LO YOGURT

Greek style yogurt

YO-YO is the yogurt ice cream that all lovers of yogurt are looking for. Because it is **fresh like ice cream, creamy like yogurt**.

Its preparation, which takes place through a “Greek style” production process, allows to achieve a good and pleasant creaminess. Based on yogurt and natural raw materials, it is also the right choice for those who want to follow a healthy and natural lifestyle. The typical consistency of yogurt is now in ice cream, for a characteristic pleasure to be enjoyed even after a meal, as a dessert. The YO-YO products do **not contain preservatives and GMOs**. They are available in the following variants: Yogurt and Raspberry, Yogurt and Hazelnut, White Yogurt and from today the stick Yogurt and Forest Fruits.
